

# Want to be a

# Business Partner?

Creative Robotics Learning Center (abbreviated to “CR8”, pronounced “create”) is a company dedicated to prepare the youth of today for the world of tomorrow by infusing soft skills (such as communication, teamwork, problem solving and observation) in a fun and exciting way so that students will not be left out in today’s fast-paced, technology-oriented world. They are the “Young Creators” that may one day engineer a better tomorrow.

Creative Robotics would like to extend a warm invitation to hop onto the robotics bandwagon with us and become a CR8 Business Partner. Our syllabus has been successfully tried and tested over a period of almost 7 years. Progress waits for no man – technology constantly improves by the day. Become a partner to be part of the trend today!

More information on the other side.

# Join Us Today!

## What is it about?

This is an **excellent business opportunity!** We will license out our syllabus and teaching methods for our Business Partner to use in their learning center. We'll provide everything you need to get started - hardware, software, training, theming, the CR8 G-HOST Portal (Global Host Portal), and more! If you already have an establishment, CR8 syllabus will add more value by maximizing resources (PCs, space, etc).
